1. Manuscript form
☐ Did each section including the title page, structured abstract, text, acknowledgements, references, tables, and figure legends, begin on separate pages (in that order)?
☐ Did you write title page, abstract, references, tables, subheading of text and figure legends in English?
☐ Did you prepare the manuscript in A4 sized paper and save it in MS Word format?

2. Title page
☐ Did you designate a corresponding author and provide his/her complete postal address, telephone and fax number, and e-mail address?
☐ Did you provide first and last names of all authors with their affiliations and identify the different affiliations of the authors?

3. Abstract
☐ For original articles, did you use the appropriate subheadings in the abstract (purpose, materials and methods, results, and conclusions)?
☐ Did the abstract not exceed 250 words for review articles and 150 words for case reports and how I do it articles?
☐ Did you list up to 5 keywords below the abstract that refer to the Medical Subject Heading (MeSH) terminology?

4. Text
☐ For clinical trials, did you mention the approval of the institutional review board and informed consent from patients in the Materials and Methods section?
☐ Are references numbered consecutively in the text, with the number designated in parentheses?

5. References
☐ Are references numbered consecutively in the order in which they are first mentioned?
☐ Did you format the references according to the Vancouver style of references?
☐ Are the journal titles abbreviated according to the abbreviations given in Index Medicus?

6. Tables and figures
☐ Did you explain all nonstandard abbreviations in footnotes using the following symbols, in sequence: *, †, ‡, §, ¶, **?
☐ Did you give a brief title for each table and figure legend in English?
☐ Did you obtain written permission for the use of all previously published images?
